Evaluation of Services

Dr. Donath and the entire staff at Cincinnati Facial Plastic Surgery take great pride in striving to provide the best possible patient experience. To ensure maintenance of the highest possible standards, we greatly appreciate your taking a few minutes to let us know your thoughts following any services that were performed at Cincinnati Facial Plastic Surgery. This record will not be revised in any way if used (anonymously) on the web site under the "testimonials" category. This will be useful for others considering procedures such as the one(s) you have experienced. Only your initials, unless you wish not to show them, the procedures you had performed, and your city of residence will be noted under your review.

Thank you very much!

Patient Initials: S.D. City of Residence Cincinnati

Date: Sept. 10, 2011

Procedure of Treatment(s) performed:

Quick Lift in July

Comments I am very pleased with both my ^{new} neck
and jaw line. Doctor Donath and his staff are
both kind and skilled. They made me
feel right about ^{having} the surgery. The
surgery itself was not stressful. I did
not need to feel the prescriptions for the
pain or the nausea. The wonderful
laser treatment two weeks after surgery
took away all signs of bruising. My "
acquaintances are telling me how "rested"
I look and others ask if I've lost weight.
(over)

Finally, deciding to have Botox injections in eye
area, forehead and upper lip really added to
a more youthful appearance. Thank you, Dr.
Donath!
